

# **Python Discord Bot**

## **BONUS 1**

**Let's scrape useful info from the  
internet!**

# Contents

Exercise 01: Download a webpage .....	3
Exercise 02: Finding the useful info .....	4
Exercise 03: Real time stock prices .....	5
Exercise 04: Weather .....	6
 Bonus 01: Your turn .....	7

# Exercise 01: Download a webpage

	Difficulty:	★
	Objectives:	Use the requests module to send a GET request and view the contents of the selected website.
	Skills required:	Request module
	Resources:	<p>Selected website for this question: <a href="https://finance.yahoo.com/quote/%5EGSPC/">https://finance.yahoo.com/quote/%5EGSPC/</a></p> <p>For your reference: ➤ <a href="#">Python Request Modules</a></p>
	Search keywords:	requests module python

Code snippet:

```
import requests
```

Output example:

```
Console Shell
</div>
</div>
</div>
<div class="column is-half">
<div class="card">
  <div class="card-content">
    <div class="media">
      <div class="media-left">
        <figure class="image is-48x48">
          
        </figure>
      </div>
      <div class="media-content">
        <h2 class="title is-5">Air cabin crew</h2>
        <h3 class="subtitle is-6 company">Berry-Houston</h3>
      </div>
    </div>
    <div class="content">
      <p class="location">
        South Jorge, AP
      </p>
      <p class="is-small has-text-grey">
        <time datetime="2021-04-08">2021-04-08</time>
      </p>
    </div>
    <div class="card-footer">
      <a href="https://www.realpython.com" target="_blank" class="card-footer-item">Learn</a>
      <a href="https://realpython.github.io/fake-jobs/jobs/air-cabin-crew-79.html" target="_blank" class="card-footer-item">Apply</a>
    </div>
  </div>
</div>
</div>
<div class="column is-half">
<div class="card">
  <div class="card-content">
    <div class="media">
```

## Exercise 02: Finding the useful info

	Difficulty:	★ ★
	Objectives:	Create a command that sends the price of the S&P 500 stock.
	Skills required:	Scraping with BeautifulSoup
	Resources:	<p>Selected website for this question: <a href="https://finance.yahoo.com/quote/%5EGSPC/">https://finance.yahoo.com/quote/%5EGSPC/</a></p> <p>For your reference: <a href="#">Scraping With Python &amp; BeautifulSoup</a></p>
	Search keywords:	BeautifulSoup scraping
	Command required:	<b>\$s&amp;p</b>

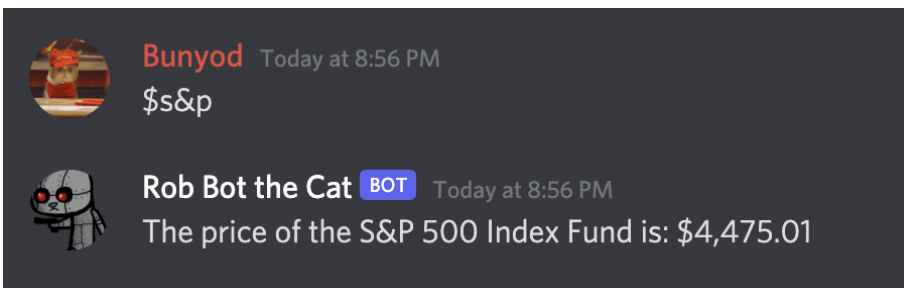

Code snippet:

```
https://gist.github.com/Bunyod16/519541aba7739db62ce5dc9a733cb7b9
```

Output example:

## Exercise 03: Real time stock prices

	Difficulty:	★ ★
	Objectives:	Create a command that sends the price of any stock
	Skills required:	Scraping with BeautifulSoup
	Resources:	Selected website for this question: <a href="https://finance.yahoo.com/">https://finance.yahoo.com/</a>
	Search keywords:	BeautifulSoup scraping
	Command required:	<b>\$stock</b>

**Code snippet:**

**Output example:**

## Exercise 04: Weather

	Difficulty:	★ ★ ★
	Objectives:	<ul style="list-style-type: none"><li>➤ Create a command that makes the bot tell you the temperature in your area</li><li>➤ Scrape the temperature of that location using BeautifulSoup.</li><li>➤ Output <b>must</b> be in celsius!</li></ul>
	Skills required:	Scraping with BeautifulSoup
	Resources:	You may go to <a href="https://weather.com/">https://weather.com/</a> and search for your location.
	Search keywords:	BeautifulSoup scraping
	Command required:	<b>\$weather</b>

Code snippet:

Output example:

## Bonus 01: Your turn

	Difficulty:	★ ★
	Objectives:	Using the knowledge you have gained today, scrape any website for useful information!
	Skills required:	Scraping with BeautifulSoup
	Resources:	
	Search keywords:	BeautifulSoup scraping
	Command required:	

**Code snippet:**

**Output example:**
